AJUNTAMENT  
DE LLOSETA

The municipality of Lloseta in Mallorca is part of the Mancomunitat des Raiguer. The recycling collection of waste is organized together with eight other municipalities: Alaró, Binissalem, Búger, Campanet, Consell, Mancor de la Vall, Santa Maria del Camí and Selva.

A weekly doorstep recycling collection started more than 10 years ago, in which according to a weekly calendar, each household disposes of 5 different waste fractions (organics, light packaging, glass, paper/cardboard as well as non-recyclable residual waste) on the street in front of its door. There are no garbage containers on the streets. There is the 'Parc Verd' (Household waste recycling centre) where every neighbour can dispose of the majority of household waste. The households, which are outside the urban area, must bring their waste to the 'Parc Verd'.

This system of collection has allowed to achieve high recycling rate levels and reduce the environmental impacts associated to the waste thanks to the collaboration of all.

# PARC VERD

The Parc Verd or household waste recycling centre is a municipal facility with access control for household waste. There are collection points for the following waste streams:

- ✓ Paper and cardboard (“Paper/Cartró”)
- ✓ Glass (“Vidre”)
- ✓ Light packaging (“Envasos Lleugers”)
- ✓ Organic matter (“Orgànica”)
- ✓ Residual waste (“Rebuig”)
- ✓ Nappies (“Bolquers”)
- ✓ Electrical and electronic devices without CFC (large and small electrical appliances, computer and telecommunications equipment, lighting equipment)
- ✓ Electrical appliances with CFC (refrigerators, freezers, air conditioners, etc.)
- ✓ Bulky waste: furniture, mattress, mattress base and similar.
- ✓ Clothes and footwear
- ✓ Scrap iron
- ✓ Green waste from pruning and gardening
- ✓ Alkaline and button batteries
- ✓ Hazardous waste packaging
- ✓ Waste mineral oil
- ✓ Waste vegetable oil
- ✓ Fluorescent lamps, low consumption bulbs, low pressure sodium lamps, high intensity discharge lamps, including pressure sodium lamps and metallic halide lamps
- ✓ Car batteries
- ✓ Small quantities of construction and demolition waste from small-scale works

The municipality can modify the list of accepted waste in accordance with the regulations.
